

## Circle and write the verbs

---

Read the story. Circle all the verbs you find and write them in the blanks.

### Stars in the sky

At night, the stars shine brightly in the sky. Some stars twinkle like little lights. People often look at the stars and make wishes. The moon moves slowly across the sky while the stars stay in their places. Sometimes, children sit outside and watch the stars. They talk about the shapes and find pictures in the sky. The stars glow and look beautiful in the dark night.

Write the verbs you find in the short story.
